VISION

We are a recognised leader in wing, kite and foil sports. We foster an engaged and growing community through exceptional events and communication, strong advocacy, and sustainable financial and environmental practices.

MISSION

Kiteboarding WA represents the interests of all wing, kite and foil based sport disciplines. It aims to increase participation through promotion of safe practices, maintaining and advocating for beach access and developing the sport through events and training for the community.

PRESIDENT'S REPORT

We are pleased to present the 2025/26 Annual Report for KWA.

A Year of Renewal

It has been a year since I joined the KWA Board, and I would like to thank our staff and volunteers for their outstanding efforts in delivering state and national events across Augusta, Margaret River, Perth and Geraldton.

During the year, our association rebranded to Kite & Wing Western Australia, still proudly known as KWA. The new name reflects our evolving strategy: embracing both wingfoiling and kiteboarding through events, training, advocacy and a growing watersports community.

Behind the scenes, we have focused on strengthening the association's governance and organisational foundations. In line with our Constitution, the Board established four specialist sub-committees to better harness the enthusiasm and expertise of our volunteers:

- Events & Participation
- Training & Pathways
- Marketing & Communications
- Finance & Governance

We also reshaped the Board, bringing together a diverse group of wingfoilers and kiteboarders committed to contributing well beyond the boardroom. Together we completed and updated the association's governance, reviewed key contracts, relaunched our website as the central information hub for members, reduced operating costs, and finished the financial year with a healthy surplus of \$11,854.

Most importantly, we have stabilised our membership after several challenging years. We are now well placed to grow our profile, reconnect with the vibrant community we serve, and strengthen relationships with schools, clubs and industry partners across Western Australia.

None of this would have been, or will be, possible without our part-time staff and dedicated volunteers. Like many community organisations, we are feeling the effects of increasingly busy lives, leaving people with less time and capacity to volunteer.

Psychiatrist Viktor Frankl wrote, "Man only becomes fully human when he overlooks and forgets himself." He believed that genuine fulfilment comes from contributing to something greater than ourselves - whether by creating, helping others or serving a cause.

That is exactly what volunteering with KWA offers. Whether you can spare an hour each month or a few weekends each season, we would love to welcome you to one of our sub-committees. If you would like to help shape the future of wind sports in Western Australia, please get in touch with me at gregory.gerhardt@kiteandwingwa.org.au.

Finally, I would like to thank the Department of Creative Industries, Tourism and Sport (CITS) for its continued support, and the taxpayers of Western Australia whose investment recognises that healthy, active communities - and the sports that bring them together - are worth supporting.

Here's to another season of great company and plenty of smiles on the water. Every dollar of last year's surplus will be reinvested into member benefits for the coming season. With a full calendar of KWA-sanctioned state events and the exciting return of the KA National Wave and Freestyle Titles, there is plenty to look forward to.

Gregory Gerhardt
President

EVENTS & PARTICIPATION

Thanks to our staff and volunteers, Kite & Wing WA delivered another outstanding calendar of events throughout the 2025/26 season.

Wave State Titles

The competition season kicked off with the inaugural Geraldton Kite Wave State Titles in November. Supported by an exceptional volunteer team, the event was rewarded with excellent conditions, strong competitor participation, and fantastic engagement from the Gero local community - a strong foundation for what we hope will become a fixture on the WA competition calendar.

GOVERNMENT OF
WESTERN AUSTRALIA

Freestyle States

In January, the Freestyle State Titles returned to The Pond, Rockingham. While very light winds tested both riders and organisers, the event provided a valuable opportunity for the freestyle community to come together.

With declining participation in traditional (unhooked) freestyle and the rapid growth of airstyle as a key training discipline for big air riders, the decision was made to broaden the competition format. From the coming season, the State Championships will feature both freestyle and airstyle disciplines, reflecting the evolving interests and progression of the riding community.

We are also excited to see KWA's first wing freestyle competition take place in the coming season, marking another important step in the development of WA's wingfoiling events.

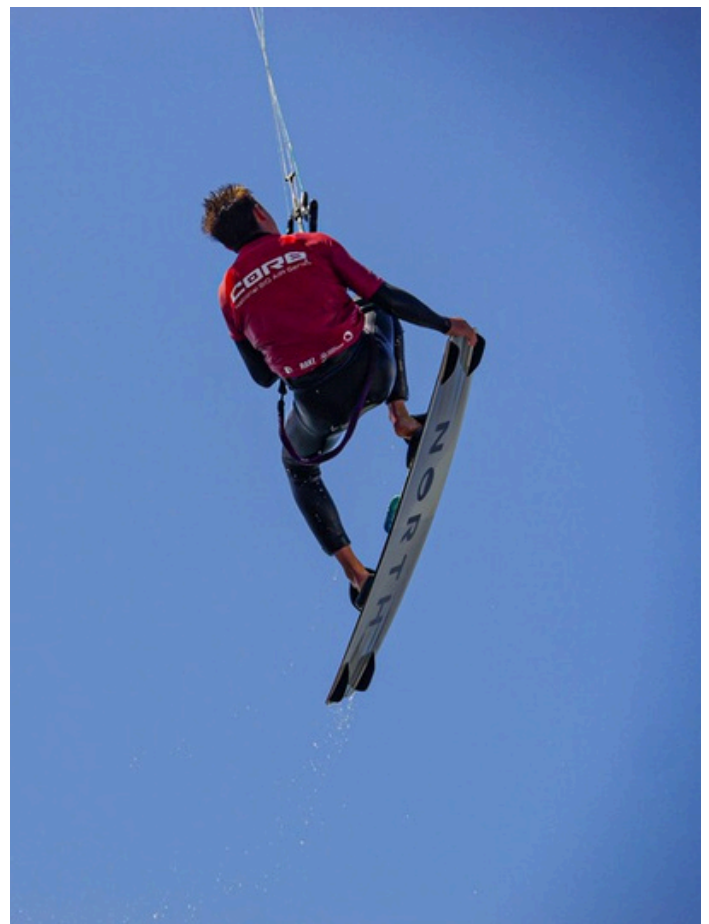

Wave Nationals

January continued with Kite & Wing WA supporting Kiteboarding Australia in delivering another outstanding Australian National Wave Titles at Margaret River's iconic Main Break. Few locations can rival Margs, and the event once again highlighted the world-class wave-riding conditions available in our state.

Big Air Nationals

February saw the return of the Core Big Air Nationals in Augusta, attracting an exceptional field of Australian and international riders. Augusta proved why it is regarded as one of the world's premier big air locations, delivering spectacular conditions and an unforgettable event. Congratulations to WA local Joel Grantham for taking out the national men's title. Australian female riders delivered particularly impressive performances, dominating both the national and international divisions.

Acknowledgements

All events, large and small, would not have been possible without the commitment of our volunteer event staff, judges, race officials, and support crew. We sincerely thank everyone who generously contributed their time, expertise, and passion to ensure each event was safe, professionally run, and enjoyable for all participants. Special mention goes to Richard Dalton who joined our event volunteer crew at full force.

Looking ahead, Kite & Wing WA remains committed to delivering high-quality competitions and participation opportunities that continue to grow our kiteboarding and wing foiling community across Western Australia.

Thanks to Karen Rothwell and Dania Gerhardt for being strong contributors to this sub-committee. We also extend our sincere appreciation to our valued sponsors and partners for their ongoing support: the Department of Creative Industries, Tourism & Sport, the Shire of Augusta Margaret River, the City of Greater Geraldton, the City of Rockingham, Core, Kiteboarding Australia, Fremantle Ports, and the City of Cockburn. Their support is instrumental in making these events possible.

TRAINING & PATHWAYS

Overview

In 2025/26, Kiteboarding Western Australia established the Training & Pathways Subcommittee, dedicated to strengthening development across five key areas: Female Development, Junior Pathways, Safety Education, High Performance, and Coaching & Officiating. This structure supports clear pathways from entry-level participation through to high performance, while ensuring safe, inclusive and quality training environments for all riders.

Coaching & Officiating

Coaching and officiating capability expanded in 2025/26. KWA developed three new race officials, including two Head Judges and one Race Director, strengthening event delivery capacity and supporting the long-term sustainability of competition pathways.

Coaching pathways also continued to grow, supported by the Junior Instructor initiative and the accreditation of KWA's first female junior instructor. A key focus for the coming year is developing wing foil instructor and coaching accreditation capability in WA, with a wing foil instructor course scheduled for October 2026.

Female Development

Female participation continued to build momentum in 2025/26, supported by a vibrant social calendar and targeted development opportunities. KWA delivered four social catch-ups with more than ninety female attendees, helping foster a connected and welcoming community of riders. Three female-specific wing and kite clinics were delivered in collaboration with SheKites, providing progression pathways and making entry into the sport easier for women and girls. These initiatives continue to strengthen female representation. The Geraldton State Wave Titles saw the largest female competitor group to date, with seven female riders taking part in this event.

Junior Pathways

KWA's Junior Progression Programme ran from October to February with ten participants, delivering steady skill development and strong engagement throughout the season. A highlight was seeing a former participant step into a coaching role, demonstrating the strength of KWA's junior pathway and the value of developing young leaders. Another junior supported a women's clinic, reflecting growing confidence and leadership among young riders. In Q1 2026, KWA introduced a pilot junior wing development initiative, giving participants exposure to advanced wing foil coaching. The season concluded with a well-attended junior social wind-up celebrating progress and connection across the cohort.

High Performance

KWA's high-performance pathway continued to evolve in 2025/26. Throughout the season, KWA hosted several key pathway events including the Big Air Nationals, Wave Nationals and the Freestyle and Wave State Championships, providing vital competitive experience and talent-identification opportunities. WA riders took the majority of national titles and podium finishes across Big Air, Freestyle and Wave, alongside growing participation in foil racing and wing foil disciplines. International representation remained exceptional, with Amber Skinner, Elena and Finn Kyngdon, and Henry and Ben Gerhardt forming strong Australian delegations at three events. Their international results at Global Kitesports Association (GkA) Youth World Championships included Ben Gerhardt, second place in U16 Men Big Air; Elena Kyngdon, third place in U19 Women Freestyle; and Henry Gerhardt, second place in U14 Men Freestyle.

Safety Education received renewed focus in 2025/26, with ongoing work to introduce regular sharing of safety tips and lessons learned across the community. KWA continues to promote best-practice safety behaviours and rescue procedures during events, and is enhancing communication around safety to support riders at all levels.

Acknowledgements

KWA extends its thanks to Training & Pathways Subcommittee members Doris Dengel and Dania Gerhardt, for their commitment, energy and leadership throughout the season, which has been instrumental in driving these achievements.

Kirsten Kyngdon
Head Training & Pathways
Sub-Committee

MARKETING & COMMUNICATIONS

Kite & Wing WA

The Marketing & Communications Sub-Committee's primary focus was the successful rebranding of the organisation from Kiteboarding WA to Kite & Wing WA, reflecting the continued growth of both kiteboarding and wingfoiling within our community.

The rebrand included a refreshed logo, a comprehensive refresh of our website, a new domain (www.kiteandwingwa.org.au), updated social media channels, and the launch of our first range of branded merchandise. The initial merchandise release at the season-closing event in March 2026 marked the beginning of a broader branding program that will continue to expand this upcoming season.

Back to Growth

With our new identity established, our focus now shifts to growing membership again, increasing awareness of the association, and strengthening the Kite & Wing WA brand across Western Australia's coastline.

To achieve this, we will:

- Build stronger relationships with schools, retailers and industry partners.
- Better communicate the value of membership, including insurance, events, training opportunities and community support.
- Improve responsiveness across member contact channels, including email and social media.
- Deliver more consistent communications and elevate the visual quality of our marketing across all platforms.
- Increase media engagement to raise the profile of our sports and celebrate the achievements of our community.
- Showcase the instructors, adventurers, competitors, volunteers, event organisers and other role models who make our community thrive.
- Expand our merchandise program to increase the visibility of the Kite & Wing WA brand.

With a strong new identity in place, Kite & Wing WA is well positioned to grow its membership, increase the value it delivers to members, and promote our sports to a broader audience across Western Australia.

Finally, I am delighted to welcome Kathi Klemp as Director and Head of the Marketing & Communications Sub-Committee. Kathi has already played an important role in establishing the sub-committee, and I look forward to working with her as we continue building the KWA brand.

Gregory Gerhardt
Acting Head of
Marketing & Communications
Sub-Committee

FINANCE & GOVERNANCE

The association has made strong progress in both finance and governance. In line with our Constitution, the Board established four specialist sub-committees to better harness the enthusiasm and expertise of our volunteers:

Events & Participation | Training & Pathways | Marketing & Communications | Finance & Governance

The Board also refined its composition, placing greater emphasis on directors with the capacity and commitment to lead a sub-committee. During the year, we completed our by-laws, engaged in advocacy projects, renewed key contracts, reduced operating costs, and finished the financial year with a net surplus of AUD 11,854. The organisation continues to maintain and improve areas of the Sports Governance Standards, with all standards at industry average, totalling a healthy average score of 2.72.

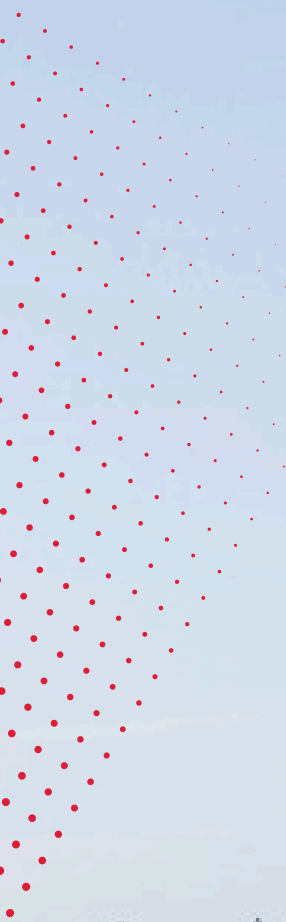

The Board extends its sincere thanks to Anthony Langlands, Ian Jack, Michelle Magdy and Suzie Pearce, who have stepped down as directors since our last AGM. Within the Finance & Governance Sub-Committee, Ian Jack deserves special recognition. Ian stepped down in March 2026 after eight years of dedicated service on the Board. After serving as a director, he became Treasurer in late 2022 and remained in the role until his resignation. His sound financial stewardship and disciplined management were instrumental in placing the association on the strong and sustainable footing.

We also thank the organisations that support our work. Our appreciation goes to Kiteboarding Australia for enabling Becky Bury and Tiffany Heary to provide part-time support to KWA, securing another year of insurance cover for our members, and providing ongoing technical support for member management. We also thank the Department of Creative Industries, Tourism & Sport for its valued partnership, along with every Board member for their commitment and service to our association.

Finally, before handing over to Liam Surridge for the detailed Finance Report, I warmly welcome the new directors that have joined the Board since the last AGM: Jenny Auckland, Tony Almond as new Treasurer and Head of the Finance & Governance Sub-Committee, Kathi Klemp as Head of the Marketing & Comms sub-committee and Jared Plug as one of our leading big air riders and head judges.

Gregory Gerhardt
Acting Head of Finance & Governance Sub-Committee

KITE & WING

WESTERN AUSTRALIA

MESSAGE FROM KITEBOARDING AUSTRALIA

Dear Kiteboarding Western Australia Members,

Kiteboarding Australia extends its congratulations to Kiteboarding Western Australia on another outstanding year of achievement and progress. This season has marked an important milestone with the organisation's transition to Kite & Wing WA, reflecting the continued growth and evolution of wind-powered sports across the state. The rebrand is a positive step forward for the sport, creating a more inclusive and future-focused identity that better represents the rapidly expanding wingfoiling community while continuing to support the strong kiteboarding foundations that have helped shape the organisation's success.

Western Australia continues to lead the way nationally, setting a high standard in governance, participation, event delivery, and organisational development. We commend the Board, staff, committees and volunteers for their commitment to strengthening the organisation and building a sustainable future for the sport.

A highlight of the year has been the successful achievement of Category E State Sporting Association status through the Department of Creative Industries, Tourism and Sport (CITS). This significant accomplishment recognises the progress made in governance, administration and strategic planning, while also unlocking additional funding opportunities that will support the continued growth of the sport throughout Western Australia. The work undertaken to strengthen governance frameworks and organisational capability demonstrates a clear commitment to best-practice sport administration and positions Kite & Wing WA for long-term success.

The organisation has also delivered another exceptional calendar of events, providing opportunities for participants of all ages and abilities to engage with the sport. Western Australia once again showcased its reputation as a premier destination for wind sports through the successful delivery of national championship events, including the Wave Nationals and the Core Big Air Nationals. These events not only highlighted the incredible talent within the community but also demonstrated the professionalism, passion and dedication of the volunteers and organisers behind the scenes.

We also acknowledge and thank the many sponsors, partners, local governments and government agencies whose support has helped make these achievements possible. Strong partnerships continue to play a vital role in growing participation, enhancing event experiences and delivering lasting benefits to members and local communities.

As the sport continues to evolve, Kite & Wing WA's leadership, innovation and commitment to continual improvement provide a model for other states to follow. We look forward to working together to further develop participation pathways, strengthen coaching and officiating opportunities, and continue building vibrant kite and wing communities across Western Australia.

On behalf of Kiteboarding Australia, thank you to everyone who contributes their time, expertise and passion to the organisation. Your efforts are helping drive the sport forward, and we look forward to another exciting year ahead.

Best Wishes,

Rebecca Bury

General Manager, Kiteboarding Australia

FINANCE REPORT

Kite & Wing Western Australia continued to strengthen its financial position while advancing its long-term goal of financial sustainability and organisational stability. The 2025/26 financial year was one of consolidation and renewed event activity, with the association delivering a stronger surplus while further increasing its cash reserves and net asset base.

In November 2025, the association registered the business name Kite & Wing WA, reflecting the growth of wing foiling and positioning the organisation to represent both disciplines across Western Australia.

Financial Overview

KWA recorded total revenue of \$131,665, compared with \$146,946 in 2024/25. The reduction reflects the timing and mix of grant funding rather than a decline in activity, as the previous year included one-off funding for the Summer of the Pond and Kite Carnival programs.

Department of Creative Industries, Tourism & Sport (CITS) grants remained the largest revenue source, totalling \$108,148 through the Industry Investment Grant (\$50,000), Big Air Nationals event funding (\$49,998), State Wave Titles support (\$3,500), and the Level 1 Coaching Framework (\$4,650). Additional grants of \$9,000 were received from the Rio Tinto Community Giving Program, Fenix Resourced and the City of Geraldton for the State Wave Titles, supplemented by membership income of \$6,340, event entry fees and sponsorship.

Event activity continued to expand with the successful delivery of national and state competitions and coaching programs. Direct event and program costs fell to \$27,471 (from \$56,196), largely due to the completion of the resource-intensive Kite Carnival and Summer of the Pond programs. Overall, KWA recorded a net surplus of \$11,854, an increase of 42% on the \$8,348 surplus achieved in 2024/25.

Operating expenditure totalled \$92,341 and remained well controlled despite increased activity. The largest expense was \$40,190 for event management services delivered through a shared-services arrangement with Kiteboarding Australia, replacing the internally employed event and operations staff used in the previous year. Closing the equipment storage facility in September 2025 reduced storage costs by more than half, to \$2,255. The association also continued investing in professional capability through part-time executive officer and financial management roles, together with insurance and IT systems.

Balance Sheet Position

At year end, KWA held total assets of \$98,271, comprising \$85,346 in cash reserves, \$7,130 in other current assets, and \$5,795 in fixed assets after depreciation.

Total liabilities were \$9,769, consisting entirely of current payables and accruals, with no debt. Net assets increased to \$88,502, up from \$76,649, with retained earnings growing by the full surplus for the year. Working capital of \$82,707 provides approximately nine months of operating cost coverage.

Strategic and Operational Outlook

The association's improved financial position provides a strong foundation for continued investment in community engagement, coaching development and event delivery.

As a Category E State Sporting Association, KWA retains essential CITS accreditation, ensuring ongoing funding for governance and administrative capacity. The principal financial risk remains the association's reliance on grant funding, which accounted for almost 90% of revenue during the year. The Board will continue to diversify income through membership, sponsorship and event-entry revenue.

Volunteer support remains fundamental to the success of our events, and the Board sincerely thanks everyone who contributes their time and expertise to the sport.

KWA concludes the 2025/26 financial year in its strongest financial position to date, with healthy cash reserves, no debt and an improved surplus. The Board remains committed to maintaining financial sustainability, supporting the wingfoiling and kiteboarding community, and promoting safe and enjoyable participation across Western Australia. We look forward to another successful summer season.

Liam Surridge
Finance Officer
